

Jenna Rosa: 90-Day Consulting Break-In Plan

A focused, outcomes-first path to move from leadership operations roles into a clear consulting offer with immediate market traction.

Prepared for: Jenna Rosa Date: March 4, 2026 Type: One-page action plan

Positioning Thesis

Start with one narrow lane where Jenna already has executive credibility: **facilities and account-retention consulting for regulated pharma environments**. Sell fixed outcomes first, then expand to broader strategic advisory after proof points.

Primary Action Items

1) Pick One Lane

- Anchor on regulated operations + client retention.
- Avoid broad "general consultant" messaging for now.

2) Productize Two Offers

- **Retention Diagnostic** (2 weeks, fixed fee).
- **90-Day Playbook Build** (implementation roadmap).

3) Publish Proof Stories

- Use three quantified wins from prior roles.
- Format each as: problem, intervention, result.

4) Tighten LinkedIn for Buyers

- Lead with consulting outcomes and buyer language.
- Name target stakeholders: COO, VP Ops, Account Leaders.

5) Start Warm Outreach

- 20 targeted outreach messages to former clients and partners.
- Ask each contact for one intro tied to renewal or transition risk.

6) Use Pilot-First Pricing

- Fixed-fee pilot for easy approval.
- Expand to advisory retainer only after pilot outcomes.

90-Day Execution Timeline

Days 1-14 | Foundation Build

- Finalize consulting lane, offer names, and deliverables.
- Draft one-page service sheet and discovery call script.
- Update LinkedIn headline and summary for consulting intent.

Days 15-45 | Pipeline Activation

- Run warm outreach cadence and book discovery calls weekly.
- Close at least one paid diagnostic engagement.
- Capture client language to refine offers and messaging.

Days 46-90 | Proof + Expansion

- Convert first pilot into case study with clear metrics.
- Launch second offer with tighter scope and stronger positioning.
- Add testimonial-based credibility assets for ongoing outreach.

Suggested Initial Offers

Offer A: Account Retention Diagnostic

2-week fixed engagement focused on identifying renewal risk, communication gaps, and operational friction.

- Deliverables: risk map, top 5 interventions, executive readout.
- Ideal buyer: account leader or operations executive under renewal pressure.

Offer B: Transition & Playbook Sprint

4-6 week sprint to design and implement a practical operating playbook for team handoff and service continuity.

- Deliverables: operating playbook, role ownership map, 30-day execution sequence.
- Ideal buyer: multi-site teams handling launch, transition, or growth.

Success Metrics (First 90 Days)

Pipeline

- Qualified discovery calls: **8-12**

Revenue

- Paid pilots closed: **1-2**

Credibility

- Published case stories: **2+**

Formal Request

Executive Coaching Partnership Invitation

Jenna, I would like to formally request the opportunity to serve as your executive coach as you build this consulting practice. I believe we can create faster momentum together by combining structured strategy, weekly accountability, and practical execution support.

If you are open to it, I would like to continue as your advisor and coaching partner through this transition and support you as an active client.
